Title of the proposed project* (max words: 20)

Summary and biological significance of the proposed research* (max words: 200)

Please provide a 200-word summary of the proposed activity and the biological significance of the project

PROPOSED WORK AT THE RECEIVING INSTITUTE

In the following explain the background, key aim & objectives, and provide a detailed research plan with a timeline for the proposed work. Include citations, using Vancouver/numbering style with references numbered in the text within brackets (). Do NOT include the list of references in here but add them to the box below. Maximum 15 references

Explain the background and reason for the proposed research work* (max words: 500)

Describe the key aim (overall goal) and objectives (steps/actions needed to achieve the aim) of the research proposal* (max words: 300)

Provide a research plan with a timeline for each objectives* (max words: 1000)

FORMATTING GUIDELINES FOR REFERENCES:

(i) Include the complete list of authors followed by Title, Journal/Preprint, Year, DOI;

(ii) Use "..." or "et al." ONLY if there are more than 20 authors; in that case, be sure to include all relevant first and corresponding/senior authors.

Formatting example: Thiru A, Nietlispach D, Mott HR, Okuwaki M, Lyon D, Nielsen PR, ... Laue ED. Structural basis of HP1/PXVXL motif peptide interactions and HP1 localisation to heterochromatin. EMBO J. (2004) 23: 489-499 doi.org/10.1038/sj.emboj.7600088

List of references for proposed research work (maximum 15 references using the following format: Authors, Title, Journal/Preprint, Year, DOI)* (max characters: 10000)

Use this space for a complete list of references for the above proposal, including full bibliographic details.

Keywords* (max characters: 10000)

List 5 short keyword terms to describe the proposed research. Separate those terms with " / ".

Applications must be submitted 30 days before the start date of the research visit. However, we recommend to apply three-four months before the proposed starting date.

Please note: an application is only complete when both references and the receiving institute acceptance have been received online. Then, the applicant must formally submit the application online.

Proposed starting date of the fellowship/grant*

11.08.2026

Proposed research end date of the project*

11.08.2026

Proposed duration of the project*

Please enter the full duration of your visit (number of days)

I understand that EMBO only funds the FIRST 90 days. If my visit lasts longer I am responsible to secure other sources of funding to support the extended period. The total duration of the stay should not exceed 6 months (180 days). Please refer to the guidelines for further details*

☐ Yes, I understand that EMBO only funds the FIRST 90 days and that the total duration may not exceed 180 days.

JUSTIFICATION

Please give a short justification of the choice of this laboratory* (max words: 200)

For a research visit to a laboratory based outside EMBC Member states and EMBC/EMBO global partners (see our guidelines for list of countries) explain why the research can't be done in an EMBC Member states or EMBC/EMBO global partners. (max words: 200)

PREVIOUS COLLABORATIONS BETWEEN HOST & HOME LABS

Is there an existing or previous collaboration between host & home labs (including co-publications and joint grants)*

☐ Yes ☐ No

If yes, describe current and past interactions between host and home labs (max words: 100)

ETHICAL APPROVAL

Does the proposed research require ethical approval (such as FELASA certificate, ethical permit)?*

☐ Yes ☐ No

If yes, has ethical approval been granted or does the host lab have the needed approval to carry out the experiments (if fellowship is granted; EMBO office may request proof) (max characters: 10000)

TRAVEL

City of departure*

In*

Select a value

CAREER PLAN

Do you intend to return to your home laboratory after the fellowship/grant?*

☐ Yes ☐ No

If yes, for how many months?*

Career plan after the fellowship/grant* (max words: 200)
